

ENVIRONMENT POLICY

Corke is committed to undertaking its activities in an environmentally responsible manner and effectively mitigating any risks that may lead to an impact on the environment.

To achieve this, we will:

- Comply with all applicable environmental legislation and standards.
- Identify and manage environmental risks within all of our operations.
- Prevent pollution, minimise waste and increase recycling.
- Regularly review and upgrade our environmental management system.
- Control our work activities via the education and motivation of our personnel.
- Promote a strong environmental ethic as part of our culture.
- Consider favourably, suppliers who pursue good environmental management practices.
- Conserve resources by reducing the use of raw materials, packaging and energy in manufacture and transport.
- Communicate openly and constructively with environmental stakeholders, government authorities and the community.
- Implement and use management systems to plan, document, measure and monitor environmental performance.
- Continually improve environmental performance through training, management review, research, development and community consultation.

Corke has an Environmental Management System compliant with the requirements of AS / NZS ISO 14001. Business streams deemed to have an increased environmental risk are certified.
